Education

Queen's University

Bachelor of Computing (Honours) with Professional Internship

Sept. 2024 – Apr. 2028

Specialization: Software Design

Smith School of Business, Queen's University

Certificate in Business

Sept. 2025 – Apr. 2028

Courses: Finance, Accounting, Marketing, and Strategy.

Professional Experience

CIBC

May 2026 – August 2026

Software/Application Developer Intern

Toronto, Ontario

- **Contributed 10+ production commits** to the launch of **Auto Invest**, a new Investor's Edge feature, developing **responsive desktop** and **mobile** functionality using **Angular**, **TypeScript**, **HTML5**, and **SCSS**.
- **Implemented 5+ customer-facing enhancements**, including **calendar-based start/end date selection** and responsive UI components, translating business requirements into features across **desktop** and **mobile experiences**.
- **Collaborated with 10+ developers, QA analysts, product partners, and business stakeholders** across **Agile** delivery cycles to refine requirements, resolve defects, validate functionality, and support successful content releases.

Metrolinx

May 2025 – August 2025

Service & Operational Planning Intern

Toronto, Ontario

- **Analyzed 50,000+ operational data points** (punctuality, delays, ridership) to generate **business insights** and support **data-driven strategic decisions** for senior leadership.
- **Automated** and optimized **Excel** and **Power BI** reporting workflows, improving **operational efficiency** and reducing manual processing time by **30%**, enabling more effective **KPI tracking and performance monitoring**.
- **Collaborated** cross-functionally with planning, operations, and engineering teams to ensure **stakeholder alignment** on key **performance metrics**, supporting **process improvements** and **accurate service adjustments**.

Extracurricular Activities

Queen's Machine Intelligence and NeuroDiscovery (QMIND)

September 2025 – April 2026

Machine Learning Engineer - PostopCare Project

Kingston, Ontario

- Collaborated on an **AI-driven healthcare platform** that digitizes post-op instructions for patients via QR codes.
- Used **LLMs** and **NLP frameworks** to generate accessible clinical outputs, improving **information delivery and workflow efficiency for healthcare stakeholders**
- Built **automation workflows** for clinicians to securely upload and update documentation using a unified interface.

Queen's Sports Analytics Organization

September 2024 – April 2026

Data Analyst & Content Developer

Kingston, Ontario

- Analyzed **1,000+ performance metrics** to extract actionable insights using Python and statistical methods.
- Built **data visualizations** and **analytical reports**, translating complex datasets into clear decision-ready insights.
- Applied **data validation** and **cleaning pipelines** to improve dataset reliability and reproducibility for team models.

Projects

Manchester United Possession Analysis | *Python, Pandas, Matplotlib, NumPy*

November 2025

- Performed multi-season analysis of Manchester United's possession metrics from 2019–2026 using **Python** and **Pandas**.
- Built **visualizations** with **Matplotlib** to identify tactical patterns and long-term performance shifts.
- Produced actionable insights and **authored a data-driven article** comparing season-over-season possession strategies.

CineMatch: AI Movie Recommendation Selector | *TypeScript, Next.js, API Integration, Gemini AI*

October 2025

- Developed an interactive movie browsing platform using **Next.js** with dynamic routing and optimized UI rendering.
- Integrated **external APIs** to enable real-time search, filtering, and personalized recommendation features.
- Built an **AI-powered chatbot** using **Google Gemini** to deliver movie recommendations and enhance user experience.

Technical Skills

Programming Languages: Python, Java, C, C++, SQL, JavaScript, Typescript, HTML, CSS

Business: KPI & Performance Tracking, Stakeholder Management, Operational Efficiency, Data-Driven Decision Making

Frameworks & Libraries: AngularJS, React, Next.js, Flask, Pandas, NumPy, spaCy

Data Analytics & Visualization: Power BI, Excel, Matplotlib, Automation, Data Validation, Process Improvement

Tools & Platforms: Jira, GitHub, Confluence, Azure DevOps, Git/GitHub, Microsoft Office, Power BI, Agile

CERTIFICATIONS

French Immersion Certificate: Bilingual (French & English).
